- **Working Knowledge of Programming Paradigms, Design Patterns, Data Structures & Algorithms**
- Heroku, Github Pages
- Web Optimizations - Audits, HTTP2, Cache Stores, Webpack- module bundling, CDNs, Throttling
- Web scraping
- Git, SourceTree, Linux, Win, MacOS
- Computer & phone repair

WORK EXPERIENCE

Techtonic Group LLC, Software Developer I
FEB 2017 - JUNE 2018

The following 4 projects were legacy codebases I worked on in an agile environment to maintain, fix bugs, optimize, plan, design & create new features (fullstack) and in some integrate third party services. Also, from my first-last day I trained new interns and lead Channel Rocket.

- **Art Intelligence** (*React, CakePHP, Bootstrap, HTML, CSS, jQuery)*
  - Platform for artists to create online art galleries

- **HomeVestors of America** (*C#, ASP.Net MVC, Razor, AngularJS, MSSQL)*
  - Administrative app for members

- **Channel Rocket** (*Ruby on Rails, MySql, Angular 4, third party APIs)*
  - SaaS Sales Enablement Platform & Admin app for members

- **Paragryn** (*React, Redux, Electron, XML, MS Word plugin)*
  - Desktop App, Document Sync System

NON TECH
